PROPOSALS

For Publishing, by Subscription,

THE COMPLETE WORKS OF

SIR WALTER SCOTT:

With a Biography: being the first American (and only) edition which contains the Author's last additions and illustrations, arranged upon their respective pages.

A COMPLETE and uniform edition of the various productions of the great 'Minstrel of the North,' is a *desideratum* with the American public. No library is complete without them, and no edition extant is sufficiently compact for such a repository; while the endless number of editions, *without any uniformity in size,* heretofore published, besides being exceedingly cumbrous, are far too voluminous and expensive to be within the reach of the great majority of readers. The undersigned therefore announce, that they have now in press, and will issue, an edition of the Works of Sir Walter Scott, which will embrace all his Poems, Novels, Histories, Biographies, and Fugitive Compositions, as well as the Biography and Private Correspondence, now in the course of publication in England, under the superintendence of Mr. Lockhart.

1st. In Parts: each Part embracing as much matter as is contained in two volumes of the present editions of the Waverley Novels, which will be put at the unprecedented low price of THIRTY SEVEN AND A HALF CENTS.

2d. Two parts will appear each month; but should the publishers find the work to meet the patronage they anticipate, FOUR PARTS will be issued monthly.

3d. The whole will be completed in *seven volumes,* or *forty eight parts.*

The paper on which the above is now printing, has been made expressly for the purpose; the present parts may, therefore, be considered a fair specimen, in every respect, of the whole work; but, should dissatisfaction arise with any subscriber, owing to an inferior article being offered, he may discontinue at any time, and have the amount paid returned.

Note.—The publication of the first volume is deferred until the receipt of the Biography, Private Correspondence, and the New Edition of the Author's Poetical Works, with 'contemporary criticism—various readings—and correspondence with some of the most eminent persons of the time when the Poems first appeared,' now in the course of publication in England.

Volume 1 will be ornamented with an excellent Portrait of Sir Walter Scott.

DAILY PITTSBURGH GAZETTE.

MONDAY AFTERNOON, NOV. 11, 1833.

The election for Governor, Lieutenant Governor, and State Senators, takes place in Massachusetts this day.—There are four candidates—*Marcus Morton*, Jacksonian—*John Davis*, National Republican—*Samuel C. Allen*, Workingmen—and *John Q. Adams*, Antimasonic.

FAIRBANKS' PLATFORM SCALES—which are advertised in another column of our paper, to day, merit the attention of grocers, commission merchants, and all others who have much weighing, particularly of a heavy kind, to do.—The accuracy of these scales can readily be proved; and, when once regulated, they cannot easily be deranged.—For convenience and facility, in weighing heavy articles, they cannot be surpassed.

Thomas P. Jones, the editor of the Journal of the Franklin Institute, in Philadelphia, is a man of science and great mechanical skill, and his opinion, in matters of this kind, is entitled to the highest consideration and confidence.—We have turned to the Journal, and find that the extract, as published in the advertisement of Mr. Atwood, is literally correct.

The proprietor of the patent, for this section of country is, we are told, now erecting a Platform Scale, for weighing hay, in the Borough of Allegheny. We have also been informed that he proposes to erect similar scales, for weighing hay, coal, &c., on all the main avenues into this city, provided sufficient encouragement is extended to him.—His propositions will merit the serious consideration of our councils.

THE WARREN CONVENTION.—The delegates from Philadelphia city and county arrived here last night. This morning, at eight o'clock, they proceeded, in company with our delegates, to Beaver, in the steam boat Beaver, and from thence they will go in hacks to Warren.

CANAL NAVIGATION.—The following article was furnished by a gentleman who has considerable advantages and facilities for forming an opinion upon this subject.—We think the estimate of the amount of business to be transacted is quite as likely to be under as over the reality. It is certainly very desirable that some arrangements should be made to procure, *at least*, as many boats and cars as will make up the compliment deemed necessary in this estimate.

"I am of opinion, from the present prospect of the transportation on the Pennsylvania Canal, that there will, next year, be transported, from east to west, 45,000 tons of merchandise and metal, which will require to transport it, 4 lines of boats, 6 boats to each line, making 24 boats, that will be 4 boats a day to leave Johnstown, to carry each 35 tons—this will require to each boat 10 cars, carrying each 3 1-2 tons—that is to say, 10 cars to leave, and 10 to arrive at Johnstown, each day, which will be 20 cars to each boat, making 80 cars to supply 24 boats.

Four boats per day, 35 each, will be 140 tons per day—250 days' navigation in the year, 45,000 tons per year—this is exclusive of back loading."

CANAL CONVENTION AT WARREN.—In pursuance of a call of the Mayor, a very large and respectable meeting of the citizens of Pittsburgh and of Allegheny County, took place at the Court House, on Saturday, the 9th instant, at 10 o'clock, A. M.

The meeting was organized by calling Samuel Pettigrew, Mayor of this city, to the Chair, and appointing William Robinson, jr., of Allegheny, Secretary.

On motion of Mr. John B. Butler, the proceedings of the meeting at Warren, which originated the approaching Convention, were read.

Judge Brackenridge, of Tarentum, in Allegheny county, then offered several resolutions expressive of the importance of an extension of our improvements to the Ohio Canal, and of the expediency of appointing delegates to the Convention about to assemble at Warren, on the 13th instant.

John M. Snowden, Esq., of Allegheny, moved that a committee of three be appointed, whose duty it shall be to report to the meeting the measures which are necessary and proper to be adopted, and that the resolutions offered by Judge Brackenridge should be referred to said Committee, which was agreed to.

The Mayor, with the approval of the meeting, nominated the following gentlemen, viz: Judge Brackenridge, Richard Biddle, Esq., and the Rev. Charles Avery.

The Committee withdrew, for a few minutes, and on their return, Mr. Biddle reported the following resolutions, which were *unanimously* adopted:—

1. *Resolved*, That in the opinion of this meeting, prompt and efficient measures are necessary, in order to secure to Pennsylvania the benefit of her internal improvements—and which is seriously endangered by the rival enterprize and improvements of a neighboring State.

2. *Resolved*, That it is expedient that this city and county be represented in the Convention proposed to be held at Warren, Ohio, on the 13th inst. and that be appointed delegates for this purpose.

3. *Resolved*, That on this momentous subject we have no sectional interests or feelings; and that our Delegates, therefore, have the same power as that conferred on those for the city and county of Philadelphia, viz:—"to exercise a sound discretion upon the choice of routs to connect the Ohio and Pennsylvania Canals, and upon all other matters that may be presented to the Convention for their consideration."

4. *Resolved*, That the Delegates be authorized to fill any vacancies that may occur in their body.

The blank in the second resolution was filled with the following names—

Richard Biddle,	Charles Avery,
George Miltenberger,	Wm. Robinson, jr.,
Alba Fisk,	G. Cochran, of R'd.
Wm. Lecky,	

Rail Road Stock.—The books for receiving the stock for the Erie and Mad River rail road were closed at New York, without obtaining the necessary stock, and it is now doubted whether the work will be accomplished.—*Canton Repository.*

An Italian Cemetery.—"An old man opened the iron door, and we entered a clean, spacious, and well paved area, with long rows of iron rings in the heavy slabs of the pavement. Without asking a question, the old man walked across to the farther corner, where stood a moveable lever, and fastening the chain into the fixture, raised the massive stone cover of a pit. He requested us to stand back for a few minutes to give the effluvia time to escape, and then, sheltering our eyes with our hats, we looked in. You have read, of course, that there are three hundred and sixty five pits in this place, one of which is opened every day for the dead of the city. They are thrown in without shroud or coffin, and the pit is sealed up at night for a year. They are thirty or forty feet deep and each would contain perhaps two hundred bodies. Lime is thrown upon the daily heap, and it soon melts into a mass of garbage, and by the end of the year the bottom of the pit is covered with dry white bones.

"It was some time before we could distinguish any thing in the darkness of the abyss. Fixing my eyes on one spot, however, the outlines of a body became defined gradually, and, in a few minutes, sheltering my eyes completely from the sun above, I could see all the horrors of the scene but too distinctly. Eight corpses, all of grown persons, lay in a confused heap together, as they had been thrown in one after another, in the course of the day. The last was a powerfully made gray old man, who had fallen flat on his back, with his right hand lying across and half covering the face of a woman. By his full limbs and chest, and the darker color of his legs below the knee, he was probably one of the lazzaroni, and had met with a sudden death. His right heel lay on the forehead of a young man, emaciated to the last degree, his chest thrown up as he lay, and his ribs showing like a skeleton covered with a skin. The close black curls of the latter, as his head rested upon another body, were in such strong relief that I could have counted them. Off to the right, quite distinct from the heap, lay, in a beautiful attitude, a girl, as well as I could judge, of not more than nineteen or twenty. She had fallen on the pile, and rolled or slid away. Her hair was very long, and covered her left shoulder and bosom; her arm was across her body, and if her mother had laid her down to sleep, she could not have disposed her limbs more decently. The head had fallen a little away to the right, and the feet, which were small, even for a lady, were pressed one against the other, as if she were about turning on her side. The sexton said that a young man had come with the body, and was very ill for some time after it was thrown in. We asked him if respectable people were brought there. 'Yes,' he said, 'many. None but the rich would go to the expense of a separate grave for their relations. People were often bro't in handsome grave clothes, but they were always stripped before they were left. The shroud, whenever there was one, was the perquisite of the undertakers.' And thus are flung, into this noisome pit, like beasts, the greater part of the population of this vast city—the young and the old, the vicious and the virtuous together, without the decency even of a rag to keep up the distinctions of life!"—*N. Y. Mirror, Nov. 2.*

British China Trade.—As it may prove interesting to our readers, concerned in the China trade, to know the exact footing on which that trade is placed by the late British Parliamentary enactment, we publish, from a late English paper, the following statemen made by James Ewing, Esq., M. P., who received it from Mr. Chas. Grant, of the India Board.

British ships will not be allowed to clear for Canton until after April 22, 1834.

Teas will be permitted to be landed and sold by private traders, any time after April, 1834.—From the Cape of Good Hope, and from places eastward of the same, to the Straits of Magellan, and not from any other place. The stock of teas belonging to the East India Company, supposed to be equal to about two and a half years' consumption, are to be realized by sales, under the superintendence of the company and board of control, which sales must be regulated according to the discretion of the court and board.

The duties on teas are to be chargeable according to the act of Parliament affixing rates on certain indifferent classes of Teas, varying from 1s. 6d. to 3s. per pound.

The Silk to be sold in Calcutta, if possible. The filatures to be disposed of as speedily as practicable. The particulars of the arrangement to be managed by the Indian government.

The Company will continue to act until their commercial concerns are wound up. Private merchants to avail themselves of this arrangement, as at present, at their option. Due notice will be given of the Company ceasing to act as warehousemen and salesmen.—*N. Y. Com. Adv.*

Dr. Franklin.—The leading property of Dr. Franklin's mind, great as it was—the faculty which made him remarkable, and set him apart from other men—the generator, in truth, of all his power—was good sense—only plain, good sense, nothing more. He was not a man of genius; there was no brilliancy about him; little or no fervor; nothing like poetry or eloquence; and yet by the sole, untiring, continual operation of this humble, unpretending quality of the mind, he came to do more in the world of science—more in council—more in the revolution of empires—uneducated, or self educated as he was—than five hundred others might have done, each with more genius, more fervor, more eloquence, and more brilliancy.—*Blackwood's Magazine.*

The new arrangement for travelers between N. York and Philadelphia, by the Camden and Amboy Rail Road line, is highly convenient. The fine steam boat New Philadelphia leaves Chesnut street wharf at half past eight o'clock in the forenoon, and the passengers arrive at N. York about three o'clock, in less than seven hours. The hour of starting from New York is eight The cars between Bordentown and Albany are drawn by the locomotive engine, with a speed, comfort, and security, that are matters of curiosity and wonder. Breakfast may thus be taken at the usual hour in Philadelphia and dinner at New York. In the summer, it will be easy to go and return, by day light, and give some hours, besides, to business or pleasure in either city.—*Nat. Gaz.*

Yesterday morning our harbor contained thirteen steam boats and forty other vessels. Many of them had received their full freight and were only waiting a fair wind. This unusual number of Lake craft in port was occasioned by a strong wind down the Lake for several days, which prevented the steam boats from making their regular trips. Several of the boats and vessels have since left port. The great quantity of goods now in the store houses and daily arriving, will furnish full freight for our Lake craft the remainder of the season.—*Buff. Pat.*

The Wife.—The young men of Boston have recently held a debate on the subject of temperance. Mr. BARBOUR made some pertinent remarks, from which we extract the following characteristic anecdote.

Mr. B. mentioned the case of a woman he had visited not long since, whose husband he found "beastly drunk," lying just within the door. It seemed she had drawn him in to prevent his public exposure, though she had not strength to raise him from the floor. She had also placed a pillow under his head. "She could'nt bear to see him without one, bad as he was, and cruelly as he had treated *her* and the children." So it is, often is, said Mr. B. "the wife will be the *wife*, though the husband be the *brute*."

And yet the wretch thus housed and thus pillowed, will, perhaps, as soon as the personal inconveniences of his debauch have passed away, commence anew the sacrifice of character and happiness, and if not so *un*beastly drunk as to require a wife's aid to find his pillow, will be so *manfully* intoxicated as to quarrel with her, and beat her till she is glad to seek a pillow for her own head. What becomes of her heart, God only knows.—*Phila. U. S. Gaz.*

White Fish.—Our market is well supplied with this delicious fish, fresh from the seine. Large quantities are caught daily at the head of Squaw Island, in the Niagara river, and brought to this city. These fish are rarely taken at this end of the Lake; and their visit at this time from the "far west," is attributed to the strong winds which of late have prevailed from that quarter. A noted disciple of Isaac Walton, whose piscatory achievements are well attested in this quarter, recently caught one which weighed 9 3-4 lbs.—*Buff. Pat.*

IMPORTANT TO FLOUR DEALERS.—The Rochester millers have determined to shut down their gates and close their flouring operations for the season, on the 16th inst. on which day their last shipment for New York will be made.—*N. Y. Gaz.*

A Whale.—The dimensions of a whale, whose skeleton is now exhibiting in England, are as follows: length of the head, 22 feet; of the back bone 69 1-2; of the tongue, 20; fins, 12 1-2; ribs 9; tail 3; its whole length, 100 feet. Its weight, alive, was 480,000 lbs.; equal to that of more than 3,000 men! Its oil, alone, weighed 40,000; about 160 bbls. It was supposed to be 900 or 1,000 years old.

The Archduchess, Maria Louisa, has ceded to Mme. Letitia, the mother of Napoleon, the whole of the property of the late Duke de Reichstadt, including the legacies left him by his illustrious father. Mme. Letitia has since executed a formal act, granting the arms of Napoleon to the Museum of France, and the fortune of her grandson to the French Hospitals.—*Paris paper.*

Longevity.—Count Borolaski, the celebrated dwarf, of whom little has been heard for years past, arrived in town, a few days ago, on business; and, after a short sojourn, during which he had the honor of visiting the Duke of Sussex, last week took his departure for his residence in the country. This extraordinary and intelligent little gentleman, who is not more than three feet high, but distinguished for the symmetry of his person, is now in his ninety fifth year, and still enjoys all his faculties unimpaired, his animal spirits never flag, and his vivacity is just the same as it was half a century ago.—*London paper.*

When Dr. Johnson offered his hand to Mrs. Porter, he told her he was without money, and that he once had an uncle that was hanged; in reply, she told him that she had no more money than himself, and though she could not boast of ever having a relation hung, she had fifty who deserved hanging.

Rumors have been circulated within a month, of large deficencies in the post office department.—The Globe of yesterday notices the reports, and, acknowleging the fact, refers the deficit to an unexpected increase in routes and in the price of western contracts; but new arrangements have been made, which will restore the credit and *balance* to the department.—*N. Y. Gaz.*

The Columbia Watchman, a warm Jackson paper, observes:—"As we expected, several independent Newspapers, who have hitherto been friendly to the administration of General Jackson, have come out decidedly against the measure of removing the Deposits. The reasons given by the President for this course are pronounced unsatisfactory and illusory, and the whole proceeding is a matter of deep regret to all his well wishers."—*Poulson.*

Alabama and the United States.—The Mobile Commercial Advertiser of a late date, (Oct. 25,) furnishes the following information:

"The report from a Columbus paper, that the troops at Fort Mitchell were to march immediately to expel the whites from the Creek territory, cannot be well founded. The troops are directed to aid the Marshal in his duties, and that officer has given public notice that the settlers will not be disturbed before the 15th of January. In the meantime we cannot but indulge the hope, that the difficulties may, in some manner, be adjusted."

The Post Office Establishment.—Year after year, the Head of the Post Office Establishment has reported to the President, and he to Congress, that, whilst it was adding facilities to the transportation of the Mail, its revenue was increasing, and the cost of transportation comparatively lessening. Year after year invidious comparisons have been instituted in this respect between the present and former administration of the affairs of the Post Office. Instead of the "rapid extension of mail routs causing a deficiency in the revenue." as was intimated, it was only last December that the Postmaster General reported to the President, that the increase of the revenue of the Post Office for the last over the preceding year was $260,758, adding as follows: "This [increase] may be attributed, *principally, to the improvements in mail facilities;* and the *increase* for the current year [the present year] may be safely estimated *at a still greater amount!*" What has become of this revenue, which has been *increasing* until it has become deficient? In the same report, it is also stated that *the surplus available fund*, on the 1st of July, 1832, amounted to 202,811 dollars. The Postmaster General will be expected to report what has become of that. In his last report, indeed, he anticipated an increased expenditure, from new contracts, &c., within the present year, which increase was estimated at $82,078 within the current year; but, not to speak of the *surplus*, it was added, that "at a reasonable estimate of the progressive increase of revenue from postage, there will be more than a sufficiency to meet this sum." And he said truly.

The official article limits its confessions to the current year. It will be a proper subject for investigation, by Congress, whether a part of the now acknowledged deficit has not occurred in preceding years, and whether a greater deficit in the revenue of the office, in comparison with its payments, if they be punctually made when due, will not certainly occur in the year to come. This is a subject not unworthy of the attention of the President himself, as well as Congress. If he can find liesure, amidst the grave occupation which the K. C. furnish him, in listening to their false and ridiculous *informations* touching our and other people's private concerns, to look into the affairs which are properly his concern, he will find enough in the affairs of the Post Office Department to require and reward some little of his attention. Some more particular account of the affairs of the Post Office will certainly be expected of him in his forthcoming Annual Message to Congress, than was given in the last document of that character, in which that Department was represented as "continuing to extend its usefulness *without impairing its resources.*" It will be expected of him to inform Congress whether that establishment be in a *solvent* condition; and, if not, by what amount it is otherwise, and how it became so.—*Nat. Intel.*

New State.—Florida considers herself entitled to become a member of the Union, from her resources and her population. Many Floridians are anxious to have the territory recognized as an independent state.—*Amer. Sent.*

A Premium of five hundred dollars is offered in the Daily Advertiser to a person who shall draft a bill for regulating steam boat navigation, which will meet with the approbation of Congress, and pass into a law at their next session.

If any question should arise as to the person entitled to the premium, the matter shall be referred to the Hon. James Kent, late Chancellor of this state, for decision; or if any thing should prevent him from hearing and determining the question, the parties may agree on another umpire.

The bills, when prepared, may be left at the office of the New York Daily Advertiser, from whence they will be forwarded to Congress.

O, the Yankees!—Those who are not acquainted with the facts can have no idea, of the immense number of clocks, of all sorts, which are exported from New England to Louisiana, Georgia, and other Southern and Western States. They form no inconsiderable part of the freight of the packet ships which leave here every week for New Orleans.—Some time ago, the Legislature of Georgia undertook to break up the trade which the Yankees had long carried on with its citizens, to their mutual advantage, in clocks. The Legislature forbade the sale of clocks, by pedlars, under heavy penalties. Now, the Yankees *lease* them for 99 years.—This is the story as it is told—we do not warrant it exactly.—*N. Y. Adv.*

The opening of the next Session of Congress will be marked by a novel controversy in the U. States Senate. Two candidates for the same seat, from the State of Rhode Island, will present themselves, to be qualified, both offering certificates of election by a majority of the Legislature. It will be remembered that Asher Robbins, whose term of service expired on the fourth of March last, was rechosen for the ensuing term of six years, by the legislature, about a year since. The validity of that election was denied at the time by his opponents, and, we believe, a formal protest made against it. The division of political parties in the State had prevented an election by the people, of either governor, or senate, on several trials. No constitutional provision for holding over existed, and the Senate *de facto* continued themselves in power by a special act, and this same Senate, together with the other House, went into convention to elect a senator, and chose Mr. Robbins. He accordingly received his testimonials of election, and will claim the seat. The opposite party have contended that the election is totally void. Accordingly, at the present session of the legislature, a resolution was offered for the two Houses to join in Grand Committee for the purpose of electing a Senator in the Congress of the U. S., in the place of Mr. Robbins, which passed by a majority of 16. Elisha R. Porter was then nominated, and elected without opposition.

The friends of Mr. Robbins then offered a Protest against the proceedings of the two Houses, and it was moved, that it be entered on the Journal of the House. The motion was rejected, and the protest was ordered to lie on the table.—*Balt. American.*

EASTON, Pa., Nov. 5, 1833.

Our canals are now in boating order, and in full use. Yesterday, we are informed, boats commenced running on the Morris Canal. The Delaware Canal is in full tide of successful experiment, and the Lehigh Canal is stout and strong.

We learn that the state of Pennsylvania will this year receive an income of $200,000 from her canals. Last year, the receipts from this source were not over 55,000 dollars—next year they may be estimated, safely we think, at half a million, if their increase be in anywise proportionate to that on the New York Canal.

By the reports of coal, shipped from the different coal regions of Pennsylvania, we find that there have been mined and sent to market, since the opening of the navigation last spring,

From the Schuylkill, about	221,000 tons
From the Lehigh, about	120,000 do.
From the Lackawanna, about	100,000 do.

Making a grand total of 441,000 tons. For the mining, labor, and transportation of which, there has been paid to the *working men* of our State, about $2 per ton, or upwards of *eight hundred thousand dollars.*

This is a part of the *American System*, and brings us in large sums of money from other parts of the union, for that which, before canal navigation and rail roads were constructed, and put in use, lay buried and useless in the bowels of the earth.—*Whig.*

Manufactories at the South.—A writer, in the National Intelligencer, is furnishing a series of able essays to prove that Manufactories, especially of cotton, may be advantageously established at the South. It will be hard work to make the Nullifiers believe it—although the arguments may be convincing to the minds of every true friend of the Union.—*Poulson.*

Floating Mattress.—A Patent has been obtained, by a gentleman of the city of Boston, for an India Rubber Floating Mattress. A satisfactory experiment was made with one as a Life Preserver, at the Navy Yard, a few days since, and we understand, says the Evening Gazette, that Commodore Elliott intends to have some further experiments made, the results will be given to the public.—*Poulson.*

The late Mrs. HANNAH MORE has made many munificent public bequests. The sums bequeathed in the legacies of this description amount to upwards of 10,000 pounds; and, as was to be expected, most of the charitable institutions of Bristol are included in the list.

It is said that Mrs. Hannah More realized upwards of 30,000 pounds from her writings.—*Poulson.*

Startling Fact.—It was stated by Dr. Cathcart, in his remarks before the Temperance meeting, last Wednesday evening, that he was in the habit of making a memorandum of every murder in the United States which came under his notice; and that during thus far of the present year he had noted *one hundred and fifty six murders and suicides!!!* and he thought a number had escaped his observation.

On the 1st of January of the present year, the population of Algiers was twenty four thousand—viz. 5300 Europeans, of whom 3300 French, 2000 Italians, Spaniards, Maltese, &c.; 18,900 natives, of whom 9000 Moors, 8000 Jews, 1700 Negroes, Biskeris, Arabs, Mozabis.—*Nat. Gaz.*

A gentleman of great notoriety, and who once possessed great wealth, is now, and has been, for four months, confined in our city jail upon a debt of $80,000, and depends on charity for his subsistence. A part of the time, his only subsistence has been the daily quart of soup furnished by the Humane Society. It is a *coincidence* of some interest that his creditor who is a man of still greater notoriety, is confined upon sundry great debts in the next room of the same prison.

The Boston Advocate, of Monday, says:—"It is with feelings of deep regret we announce, to day, the premature death of John W. Ames, Esq. of Dedham, a son of Fisher Ames, who inherited much of his father's talents, and all of his devotion to his country."

We are pleased to learn, says the Alexandria Gazette, that scientific gentlemen, who have recently visited the newly discovered Coal Region on the borders of the Potomac, in Berkeley and Morgan Counties, have expressed their opinion that the Coal is of a most excellent quality and the supply likely to be inexhaustible.

LATE FROM MEXICO.

The brig Isabella, arrived at the port of N. Orleans, from Vera Cruz, brought papers to the 29th September, inclusive, containing intelligence from the capital (Mexico) to the 21st. The cholera had ceased its ravages in the latter city; but the mortality had been such that the exhalations from the dead bodies had corrupted the atmosphere, and it was anticipated that that pest would either commence its ravages, or that a new plague would take its place.

The political state of the country had undergone but very little change. The ravages of the Cholera has decreased considerably in Vera Cruz; but it had not as yet become extinct.—*Poulson.*

New York, November 7.

The Election.—We have delayed going to press till the latest hour possible, for the purpose of obtaining returns from the different wards of the result of the election. In many wards, however, the votes have not been canvassed, and it is therefore not in our power to lay before the public any thing like a regular return. There can be no doubt, however, we think, that Wm. H. Bunn is elected Register, by a large majority, and it is probable also, that the Regency ticket has succeeded.—*Courier.*

Havana papers, to the 12th ultimo, state that the Cholera has entirely subsided, but that another disease, called the *Sarampion*, has assumed there an epidemic character.—*Poulson.*

The following feeling and beautiful tribute to the virtues of an eminent but unfortunate philanthropist, is copied from the Augusta Chronicle.

TO JOSEPH LANCASTER.

"Why am I not a rich man?—Am I then envious?—Oh! yes—for I deeply feel how much I envy those who, with the will, have also the *power to do good.*" STRANGER.

And has it come to *this*?—Good man—
Parent of knowledge to the Poor!
How dare misfortune blight and ban
A heart so pure?

Can it be true, that he whose toil
Sow'd intellect o'er half a world,
Should sink upon a foreign soil
By mis'ry hurl'd?

O no! Beneath the heaven's wide dome,
Where'er thy useful mind may wend,
Each good man's bosom is *thy home;*
Thou Christian's friend.

Thy treasure all—celestial worth—
To sordid wealth and rank ne'er given;
Slaves dug for *theirs*, from out the earth!
Thine—dropp'd from *Heaven!*

Thou joy'd to view each gem's bright ray,
Soul sparkling, which thy skill brought forth
Polished from dross and vice;—then say—
This is *my work.*

Cheer up! Thy harvest shall not fail
For future millions must aver
They owe their Virtue—Freedom—Weal,
To LANCASTER.

Fairbanks' Platform Scales.

THESE scales are constructed upon an improved principle; are fitted up with great care by the manufacturers, and warranted to weigh with accuracy from half a pound to 12,000. Being placed in, and forming part of, the floor, the process of weighing is performed with ease and facility, while the space they occupy may be improved as a passage way or for other purposes.

The construction of these scales is such that they are little liable to derangement of wear, and their perfect operation will be guaranteed for any reasonable length of time.

The usual objection, that a new method of weighing cannot be safely entrusted to unskilful hands, is obviated by the use of the improved BALANCE, concerning which are the following remarks in the Journal of the Frankiin Institute, of the state of Pennsylvania, for the promotion of the Mechanic Arts, for June, 1833. (Edited by Thos. P. Jones, M. D., late Superintendent of the Patent Office, at Washington, Professor of Mechanics in the Franklin Institute, &c.

"The Messrs. Fairbanks, some time since, obtained a patent for a Platform Weighing Machine, and this mode of adjuating and graduating the Beam of the Balance, and the weights, was devised by them with a view to its employment with the before mentioned machine. We have had an opportunity of examining one of their balances, and have been much pleased with it: this examination, however, was not necessary to the conviction that it possesses a just claim to the character of a real improvement, the whole arrangement being so simple as to enable any person to perceive that it is well adapted to the purpose contemplated, that of facilitating the business of weighing, and more especially of heavy articles."

The subscriber, as Agent, will receive orders for the above Scales, which will be made in this city to order. They can be seen at his Warehouse, No. 84, Front street.

SIX EGYPTIAN MUMMIES

In the Diamond, next door to the office of The Pittsburgh Gazette.

THE features of some of these mummies are in perfect expression—the hair of the head preserved as if now living. For the direct purpose of giving visitors, of all descriptions, that wish to see the ancients themselves, and likewise the bodies that were embalmed not less than three thousand years ago, this collection was exhibited to a numerous concourse of visitors, in the city of Philadelphia, for the space of 3 months; and next in Baltimore, in the Museum, for five weeks, where contract was only made for two weeks, and continued for five weeks by request. The inhabitants of this city, it is hoped, will call, and patronize a collection worthy the attention of the curious.

The proprietor is authorized to use the names of the most eminent physicians and professors in the city of Philadelphia, and likewise that of Baltimore.

Paper Mill for Sale.

THE Extensive Establishment, known as the Soft Spring Paper Mill, now in the occupancy of C. Lukens & Co. is offered for sale.—Its situation is both desirable and healthy, possessing local advantages superior to any mill in the west, with a spring of pure, soft water, yielding a superabundance for all purposes—propelled by an engine sufficiently powerful, and to which has recently been added an entire New Machine for the manufacture of paper. Its location is about two miles from the city, on the Eastern Turnpike. The subscribers have no hesitation in believnig it offers inducements to purchasers highly advantageous.

The terms will be rendered satisfactory, and but a small portion of the purchase money required at the time of sale, with an extended credit for the residue, being determined to make an early disposal. It will be sold low. Application made personally, or by communication, to either of the subscribers, will be attended to.

SALE OF REAL ESTATE.

THE Subscribers, Trustees of the New Philadelphia Society, at Phillipsburgh, Beaver county, Pennsylvania, offer for sale the following property, to wit:

1	tract of land	containing	330 acres
1	do	do	330
1	do	do	67
1	do	do	7
1	do	do	40
	other lots, containing about		6

The above lands lie in one body, fronting about two miles upon the Ohio river—immediately opposite the mouth of Big Beaver creek, and the Beaver Division of the Pennsylvania Canal. The land is rich, and a part of it under a high state of cultivation—its location pleasant and healthy. The improvements upon the same are valuable, including the town of Phillipsburgh, late the residence of Count Leon, and the New Philadelphia Society. The town contains about 40 Dwelling Houses, now in order; some of them brick houses and two stories high. A large and spacious Hotel, a Store house, Church, a number of Shops, for mechanics, Stables, Barns, and other out houses. Also, two large new buildings, lately erected, but not yet finished, one of brick, the other of frame (the latter suitable for a manufactory) a very extensive public garden, and also fruit trees of various kinds. The property has also attached to it the right of a ferry across the Ohio, which is valuable, and becoming more so every day.

The above property is situated in the midst of a wealthy and prosperous country, distant about 28 miles below Pittsburgh, and one mile from Beaver, the seat of justice for Beaver county—and having a view for many miles up and down the Ohio, and of the country to a great distance around.

The subscribers are confident in saying that few situations could be found, presenting greater facilities to the farmer, mechanic, the manufacturer, and others—a soil rich and productive—the neighborhood abounding in coal—well timbered and watered, and, by means of the Pennsylvania Canal, and steamboat navigation, a cheap and ready conveyance to market, and a communication with other places is ensured.

The property is susceptible of divisions into farms, or for the location of new towns, or for the extension of the present one.

Should it not be sold on or before the first day of January next, it will then be offered at public sale, upon the premises, to the highest and best bidder.

It will be sold in a body, or in parcels, to suit purchasers.

Terms of sale will be reasonable.

Information can be had by enquiring of the subscribers, two of whom live in the neighborhood, and one on the premises.

PERIODICALS.

AMERICAN RAILROAD JOURNAL, and Advocate of Internal Improvements, which is designed as a repository of the accounts of the rise and progress of numerous works of Internal Improvement, in the United States particularly, and in other parts of the world generally. The work is published weekly, and forms a large octavo volume each year, of 832 pages of 3 columns each, for $3 per annum, in advance.

New York Farmer, and American Gardener's Magazine. This work is designed for the agriculturist, and will be found to contain much, both interesting and profitable, to those who cultivate the soil as a business, or merely a garden for amusement. Published in monthly parts of 32 large octavo pages, with three columns each, at $3 per annum, in advance.

Mechanics' Magazine, and Register of Improvements and Inventions. To the Mechanics of the United States—In this populous and enlightened country, almost every description of persons can obtain knowledge and amusement connected with their peculiar pursuits, through the medium of the Journal or Magazine, especially devoted to their interests. The Theologian, the Farmer, the Philosopher, the Sportsman, and even the Plough Boy, has each his Journal, where he can find a record of the passing events of the day, connected with his peculiar avocations and recreations. Hitherto, the Mechanics (who form a large and most important portion of the community) have had no Journal, to which they could turn, with the certainty of finding that information they desire, no periodical of which they could say: 'This is ours, and for us.' In the hope that the attempt to supply such a want at a price so reasonable as to be within the reach of all, will meet with your active support, the subscriber proposes to publish, on the first day of each month, a Mechanics' Magazine. It will contain a well digested selection of the most useful and interesting articles in the London Mechanics' Magazine, London Register of Arts and Sciences, Repertory of Inventions, Library of Useful Knowledge, Journal of the Franklin Institute, and o her works, connected with the arts and manufactures, published in this country and in Europe, accompanied with numerous and well executed Engravings. Its pages will be open for the communications of all, and especially for those of the practical artisan, to whose interest it will be particularly devoted. The Mechanics' Magazine will contain, also, a due portion of the occurrences of the month, Scientific and Literary Reviews of Books, Anecdotes, Economical Receipts, Reports of the state of Mechanics' Institutions, and other Scientific Societies in this state and other countries. To be published monthly. Each succeeding number will contain 64 pages, handsomely printed, and stitched in a neat cover. Six numbers will form a volume, for which an index and title page will be supplied, and also a Portrait of some distinguished Mechanic, as a Frontispiece. Terms, $3 per annum, in advance.

DOCTOR ROBERT'S

☞ *WELCH MEDICAMENTUM.* ☜

FOR the cure of Dyspepsia, Liver Complaints. Jaundice, Cholic, Fever and Ague, Dysentery, Headach, Loss of Appetite, Flatulence, Hypochondria, Hysterics, Dropsical Complaints, and Heartburn, It also prevents all Bilious disorders, and removes habitual Costiveness, Asthma, Strangury, Gravel, Rheumatism, Gout, and Impurities of the Blood.

A person who uses this Medicamentum will not require the use of the lancet, or any means of the healing art. It restores and revives the animal spirits, invigorates the system, removes nervous tremors, obtunds rheumatic and anthritic pains, and prevents their return. It cleanses the stomach of all morbid humors, which cause indigestion, acidities, headach, and lowness of spirits; cures all bilious disorders, and all cholics of the stomach and bowels, almost immediately; inspires cheerfulness; gives comfort to the dropsical; takes away palpitation of the heart; gives circulation to the blood; restores bloom to the sallow or sickly cheek, and plumpness to the meagre habit; purges without pain, and banishes all cause of fever of every kind. It acts on the stomach, that great reservoir of the human system, a diseased state of which causes all diseases. No alteration in the usual habits of life is required, but the abstaining from distilled ardent spirits.

CERTIFICATE,

From Rev. Derick Lansing, D. D., Pastor of the Second Presbyterian Church in Utica.

Utica, Jan. 6, 1830.

To Dr. Hitchcock.—Dear Sir: I have always been one of the number of those who have placed little confidence in *nostrums* or *specifics*, and for this reason, although I saw your advertisement of the Welch Medicamentum, I could not bring my mind to consent to use it. My sufferings, from indigestion, during the past summer, were so severe, as materially to affect my comfort, and my capacity for usefulness. I have reason to thank you, sir, that, on hearing of the state of my health, you kindly sent me your Medicamentum. I have taken it faithfully, and with entire success. I have not been visited with one of those turns of distress, which before were weekly periodical, since I began to take your valuable medicine. Could I receive the same relief which I have hitherto experienced, on condition of taking it for life, I should cheerfully comply with such condition. Your's, very truly, D. C. LANSING.

ANTI-DYSPEPTIC ELIXER.

ONE of the most agreeable and efficacious Medicines ever discovered for the permanent cure of those chronic states of derangement of the stomach, constituting that miserable disease called Dyspepsia.

The basis of this Elixer s vegetables, and perfectly innocent in its operation; it destroys that sour state of the stomach, the instant it is taken, and stops the morbid secretion, by giving strength to the muscular fibre of that important organ, by which means the peristaltic motion of the intestines is increased, and the costiveness obviated; a new action is given to the system, which puts an end to a train of distressing nervous sensations.

Another form of the disease in which the Elixer is admirably calculated to relieve, is the decline of fever, where the stomach will not bear the ordinary strengthening medicines indicated in such cases, it has the surprising effect of giving vigor, and restoring the natural secretions of the body, without increasing the febrile state. Not the least danger is to be apprehended from exposure to cold, while under the use of this medicine, nor will it interrupt necessary employment of the patient a single hour.

☞ A number of cases of cures performed by the Anti-Dyspeptic Elixer in the vicinity of Pittsburgh can be given.

GEO. W. CARPENTER'S COMPOUND SYRUP OF LIVERWORT,

A SAFE and Valuable Medicine for Coughs, Spitting of Blood, Consumption, and Liver Complaints.

Most of the medicines made use of for the above diseases are of a stimulating nature, composed generally of Resins and Balsams, in alcoholic solutions, which, although sometimes givingt emporary relief, in almost every instance where they are freely used, aggravate the disease, and reduce the strength of the patient.

This article possesses superior advantages over these preparations, its action being of a tonic, invigorating and strengthening nature, thus overcoming the disease by promoting expectoration, and gradully increasing the strength of the patient, and thus, without being attended with any unpleasant effects: it also agrees with the stomach, in a cases, and is a pleasant medicine to take.

PATENT PLANING MACHINE.—The right to use this valuable machine, invented and patented by William Woodworth, and known as Woodworth's Patent Planing Machine, may be obtained on application to the subscriber for the counties of Allegheny, Butler, Beaver, Washington, Green, Fayette, Somerset, Cambria, Indiana, Jefferson, Clearfield, M'Kean, Warren, Venango, Mercer, Crawford, and Erie, in the State of Pennsylvania. That part of Maryland lying west of the Blue Ridge; all that part of Virginia lying west of the Blue Ridge, except the county of Ohio. The whole of the state of Ohio except the counties of Hamilton, Butler, and Montgomery. The whole of the state of Kentucky, except the counties of Jefferson, Boone, Oldham, Gallatin, and Campbell. The whole of Indiana, except the counties of Floyd, Clark, Jefferson, Dearborn, and Switzerland. The whole of the state of Illinois, and the territory of Michigan. Rights to use the machine in that part of the United States, named above, will be sold by the single county or in larger districts. As it is presumed that no one will purchase without seeing the machine at work, a description of it is deemed unnecessary. Should any person, however, wish to purchase, and find it inconvenient to visit the places where it is in operation, a machine will be furnished, warranted to plane, tongue and groove, and bring to an exact width and thickness, a white pine board of 12 feet long, and of any width from 1 to 14 inches, in one minute and ten seconds, or an oak board of the same dimensions in 2 minutes and 10 seconds. Machines may be seen at work in the cities of New Orleans, Washington, Philadelphia, New York, Boston, and others at the south and east, at Wheeling, Virginia, and at the saw mill of Messrs. Irwin & Herron, in this city.

Persons desiring to purchase will have the certificates of scientific and practical men who have seen it at work, in the different places in which it has been put up, forwarded to them. They give their opinion as to the great value of the invention, state the time they have seen boards dressed by this machine, and describe the quality of the work as compared with that performed by hand labor.

VALUABLE PROPERTY FOR SALE.

THE Subscriber offers for sale the farm on which he lives, in Washington county, on Pigeon creek, one mile south of Williamsport, on the Monongahela river, to which there is a perfectly level road. This farm contains near 400 acres, the greater part of which is first rate land. There is on the premises a Brick Dwelling House, a Merchant mill, in good repair, a new saw mill, a stone still house, 35 by 40 feet; a salt works is also in operation, and worked to advantage; about 150 acres of land cleared and under good fence. There is on the premises three small tenements for the accommodation of families. This tract is well timbered, and abounds with stone coal and springs of water, both of the best quality.

To a person wishing to embark in a manufacturing business, and possessing capital, this would be a very desirable situation, having the advantage of both water power from Pigeon creek, and banks of the very best coal near to the works, and easy of access, and its vicinity to so navigable a river where articles of any kind are so cheaply transported to Pittsburgh.

For further particulars, apply to James P. Stuart, Merchant, Wood street, Pittsburgh, or to the subscriber on the premises.

In all cases where the passengers desire to reach Baltimore in time for the 5 o'clock steam-boat to Philadelphia, they can do so by leaving Chambersburgh at one o'clock in the morning, or immediately after the arrival of the Western Mail Stage. In this way, they arrive in Philadelphia, by eight o'clock the *second morning*, from Chambersburgh.

☞ When a load offers, the stage will run on Mondays. April 23, 1830.—tf.

TYPE FOUNDRY.

HAVING purchased of Mr. Richard Ronaldson, his long established and very extensive Type Foundry, the subscribers have formed a co-partnership for the purpose of continuing said business, and for the convenience of their friends and patrons, have removed their establishment to a more central part of the city. As it is their intention to keep on hand a good assortment of the best type, and to make such additions and improvements as the taste of the trade and the wants of the country require, they flatter themselves that this establishment will merit a large share of patronage. They have now several founts on hand, which can be furnished at a few hours' notice, and are prepared to make founts of all weights and sizes, from Pearl to 22 lines Pica, including a variety of Ornamental Letter. Their assortment of Cuts, Dashes, Brass Rule, and other Ornaments, will be found to be very extensive, of which specimens will be forwarded to Printers as soon as they can be prepared.

Printing Presses of every description, Printing Ink of the most approved qualities, Composing Sticks, Brass and Common Galleys, Chases, Imposing Stones, Cases, Paper and Press Boards, Standing Presses, Furniture, together with a complete assortment of all articles used in a Printing Office, will be kept constantly on hand.

Small founts, suitable for Book Binders, in great variety, may be had when called for.

Orders from all parts in the Union will be promptly and most carefully attended to, and particularly in supplying *sorts* for all founts furnished by their predecessors, Binny & Ronaldson, and Richard Ronaldson.
